There was a lot of discussion in the last few years if escorts in Chennai must be regulated or possibly banned, the main reason behind that was few accidents where Chennai escorts lost their lives in the hand of their clients. As a result of that the government of Canada has come up with new rules to organize the operations of escorts in Canada <http://www.theglobeandmail.com/news/politics/canadas-new-prostitution-laws-everything-you-need-to-know/article19610318/> this rule left a window for escorts to operate in Canada but on their own without the help of any agencies, the law was not very clear to many people. Now Chennai backpage escorts and Chennai now escorts were shut down

On another note websites such as Kijiji and Craigslist have banned escorts ads few years ago, many other Canadian classifieds did the same also.

Many Canadian girls choose the escorts career at the beginning of their life in order to save some money that can give them a push in life either by going through an education program down the road or by simply do enough saving so they can shift career in a later stage of their life.

The other industry that could be similar to escorts in Chennai is the adult massage industry, yes it goes by hour and claim that it is only a massage however any time you read the word full service most likely it implies you can get way more than an erotic massage (possibly have sex)
